This is a level 1 header

R Markdown

This is a level 3 header

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

here is a link to Google

here is a word in **bold** and another word in **bold**

here is a word in *italics* and another word in *italics*

when we compile our document, we are using the rmarkdown package.

here are some example R commands:

```
2+2 mean(c(1,2,3,4,5))
```

Here is an example of a non-numbered list:

- Breakfast
 - food
 - * eggs
 - * toast
 - * bacon
 - drink
 - * apple juice
- Lunch
 - taco
- Dinner
 - baked chicken
 - broccoli
 - rice

Here is an example of a block quote. This paragraph has two lines.

- 1. This is a list inside a block quote
- 2. Second item.

This text is nested

Here is an example of code in a blockquote using 5 spaces:

```
2+2 mean(c(1,2,3,4,5))
```

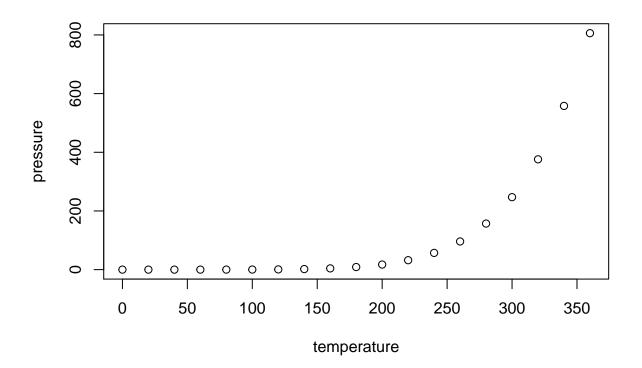

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

summary(cars)

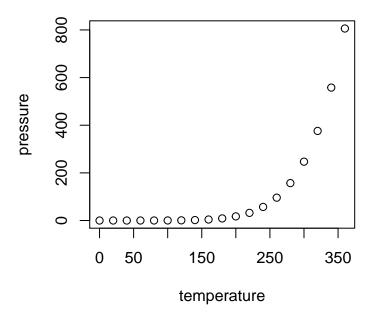

```
##
        speed
                         dist
##
           : 4.0
                    Min.
                            :
                               2.00
    Min.
                    1st Qu.: 26.00
    1st Qu.:12.0
##
##
    Median:15.0
                    Median : 36.00
##
    Mean
            :15.4
                    Mean
                            : 42.98
    3rd Qu.:19.0
                    3rd Qu.: 56.00
##
    Max.
            :25.0
                    Max.
                            :120.00
```

Including Plots

You can also embed plots, for example:

Note that the echo = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.

Insert Tables

knitr::kable(head(cars), caption = "Top 6 Rows of Cars Dataset")

Table 1: Top 6 Rows of Cars Dataset

speed	dist
4	2
4	10
7	4
7	22
8	16
9	10

Insert an equation

$$Y = \beta_0 + \beta_1 x_1$$
